Ecolumidoux: When Glowing Green Isn't Toxic

by Raquel on [April 2, 2010](#)

I've been searching a long time for truly eco friendly nightlight options, so I'm almost as excited over this cute bunny as I'm sure my kids will be.

The Ecolumidoux is photoluminescent: place him near a source of natural or artificial light and he charges up, ready to glow in the darkness of night, no batteries or power leads needed!

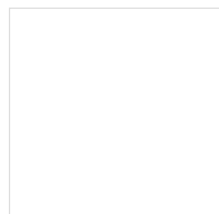

A brilliantly innovative toy, the Ecolumidoux isn't an 'eco gimmick' either. His green cred is truly luminous, all the way from the top of his fair trade bunny ears to the tip of his organic cotton tail.

Made by French brand [♥ Papili](#), he'll be hopping your way soon via lovely fair trade eco store [♥ Fairground Child](#).

@Sharyn Oh, I agree; one of the neatest green toys I've come across yet!

Thanks a lot for this post !

We will can put in our press book. Ours partners in Sénégal, Mali and India will be verry happy to see that !

Sorry for my english, i'm not very good.
